Indiannica Learning Curriculum Books Pioneering the Implementation of NCF-SE 2023

The National Education Policy 2020 (NEP 2020) paved the way for transforming India's schooling system. The National Curriculum Framework for School Education (NCF-SE) released on August 23, 2023 ensures effective implementation of NEP 2020 and suggests various ways to bring about changes in school curricula, including pedagogical approach, instructional practices, and ways to empower teachers.

Our books are designed to fulfil objectives of the NCF-SE 2023 and aim at ensuring the following:

- Attain the desired Curricular Goals, Competencies, and Learning Outcomes
- Include the suggested Pedagogical Approach and Instructional Practices
- Promotes the recommended School and Classroom Practices
- Focus on Multidisciplinary, Holistic, and Integrated education
- Empower teachers with right Teaching Learning Resources
- Encourage Experiential and Activity Based Learning
- Entail Discussion and Discovery-Based Learning
- Promote Pride and Rootedness in India
- Encourage extensive use of Information and Communication Technology (ICT)
- Embrace Linguistic Diversity and build Multilingual Capacities

Indiannica Learning Private Limited

Indiannica Learning Private Limited (a subsidiary of Navneet Education Limited), since 1998, has been a pioneer in creation, development, distribution, and marketing of products that promote knowledge and learning.

The company has an extensive product catalogue comprising specialised curricular learning solutions consisting of textbooks; interactive student and teacher resources; teacher training materials; educational, instructional, and information products as well as technology solutions.

We strongly involve ourselves with schools, parents, and educators, designing products for the 21st century classroom and today's home learning environments, in association with global educational publisher, Encyclopædia Britannica, as exclusive licensee of Encyclopædia Britannica curricular solutions. At Indiannica Learning, we are committed to our mission of enriching experiences of learners that we connect with and spreading knowledge beyond horizons.

Magic Tree - English

Magic Tree, an Indianna Learning pre-primary course, furthers the mission of fostering capable and empowered individuals. Scientific research proves that pre-schoolers between ages three and six require a conducive environment to grow and learn. Based on the NEP's vision of creating foundational literacy, Magic Tree encompasses activities to enable learners to develop strong vocabulary, strengthen their listening and speaking skills, and become adept at establishing reading and writing skills.

AUTHOR

Raina Bajaj

- She has been associated with the education sector for two decades
- Headed the primary wing of some renowned schools in Delhi and Gurugram, such as Venkateshwar Global School, Brain International School, and Delhi Public School.
- Authored academic books for the primary grades

Magic Tree - Maths

Magic Tree, Numeracy—a pre-primary course in mathematics—is an honest attempt to further the 'national mission of attaining foundational numeracy.' The course exposes children to the concepts with fun, creative, interactive, and exploratory activities. Our goal is to shift the mindset away from the culture of rote learning toward accurate understanding and learning how to learn. Various engaging activities are provided to capture children's attention, encourage learning, and build 21st-century skills.

AUTHOR

Ashoo Kalra

- Teaching and administrative experience of over two decades. Formerly Dean of academics, Delhi Public School Varanasi, and Principal, Seth Anandram Jaipuria, Varanasi
- Teacher to pre-primary and primary classes
- Expert in setting up new schools, organizing teacher development programmes, developing curricula, and conducting academic audits

वर्णों की बगिया

मैजिक ट्री पूर्ण प्राथमिक स्तर के लिए इंडियानिका लर्निंग द्वारा तैयार एक सुंदर एवं आकर्षक पुस्तक श्रृंखला है जिसका उद्देश्य बच्चों के समग्र विकास को सुनिश्चित करना है। वर्णों की बगिया नई राष्ट्रीय शिक्षा नीति 2020 के दिशा-निर्देशों पर आधारित है। यह श्रृंखला बच्चों में सीखने की नींव को मजबूत करती है। इससे बच्चों को अपनी सोच को स्वतंत्र रूप से विकसित करने और किसी समस्या का समाधान निकालने में मदद मिलेगी जिससे भविष्य में वे अपनी नेतृत्व क्षमता का प्रदर्शन कर देश के विकास में अपना योगदान देने में सक्षम होंगे।

Grammar Steps

Classes 1-8

Grammar Steps is a comprehensive and graded course in English grammar and composition based on the ICSE curriculum. The spiral exposition of concepts ensures proper integration of old topics with the new ones, utilising existing knowledge base to learn new things. The grammar structures are explained through examples that lead to clear understanding of the concepts. The definitions and rules of grammar are presented in simple and lucid language.

CONSULTANT EDITORS

Meenakshi Atal is an eminent educationist with more than three decades of experience. She is a supporter of the VAKT (visual-auditory-kinesthetic-tactile) approach to the teaching-learning process. Apart from being an innovative teacher, she is also an author and a teacher trainer.

Mitra Sinha Roy has been an accomplished educationist for over three decades and has been associated with some of the most prestigious schools across the country.

Number Ace

Classes 1-8

Number Ace is a new ICSE course for classes 1 to 8. It follows the curriculum released by the Council for the Indian School Certificate Examinations in November 2016. The basic approach behind the series is the belief that every student is capable of learning and enjoying maths if it's taught as something more than just an academic subject. The books use interesting openers, fabulous activities, and real-life connects to enable learning. The content is designed with an objective to engage learners, spark curiosity, develop 21st century skills, and provide ample scope for practice.

AUTHORS / SERIES EDITORS

For Grades 1 - 5: **B. Nirmala Shastri**
For Grades 6 - 8: **Ajay Chawla & Kekali Bagchi**

B. Nirmala Shastri, formerly Head of Department, Maths, Jamnabai Narsee School, Mumbai, has around three decades of experience in teaching and academic training.

Ajay Chawla, currently associated with St Joseph Academy, Dehradun, has more than two decades of teaching experience. His previous teaching assignments include reputed organizations like Doon School and Marshall School.

Kekali Bagchi, an MSc in mathematics and economics, has more than 25 years of teaching experience and is a much sought-after teacher trainer for both ICSE and CBSE schools.

NEW**★ ICSE Maths**

Number Ace

Classes 9-10

Number Ace, a course in maths for ICSE, has now been extended to classes 9 and 10, making it a complete ICSE course up to class 10. It follows the curriculum released by the Council for the Indian School Certificate Examinations in November 2016. The basic approach behind the series is to elucidate the abstract concepts through plenty of worked-out examples and then provide learners an ample scope for practise. It builds new concepts on previously learnt concepts, thereby reinforcing the mathematical knowledge acquired in previous classes.

AUTHORS

Sharmila Ghose, formerly Headmistress, Future Foundation School, Kolkata, has more than three decades of experience in teaching and academic training. During her extensive teaching career, she also worked as an Examiner for mathematics for ICSE and ISC examinations for more than two decades.

Ajay Chawla, currently associated with a reputed school in Dehradun, has more than two decades of teaching experience. His previous teaching assignments include reputed organisations like Doon School and Marshall School.

★ **ICSE** Science

Science Venture

Classes 3-5

Science Venture (Revised) is the latest series for the CISCE board students. It is a fully illustrative and comprehensive package for the students appearing in ICSE examination with graded assessment at all levels of Bloom's taxonomy. It not only encompasses the reasoning, analytical, and application skills of the students, but also provide ambient room for their values, creativity and flow of ideas. The series not only links scientific knowledge with daily life experiences of students but also bridges it with a wide range of subjects to ensure an integrated learning with a more practical model of education.

AUTHORS

Dr Sanaya Nariman has been actively involved in the field of elementary education for over 36 years. She has conducted numerous teacher training sessions across the country. She has also published several milestone research papers in science. She is the honourable founder and executive member of the Programme for Environmental Awareness in Schools (PEAS).

REVISED**★ ICSE Science**

Science Venture

Classes 6–8 (Chemistry, Physics, Biology)

Science Venture (Revised) is the latest series for the CISCE board students, with separate books of Physics, Chemistry and Biology. It is a well-illustrative and comprehensive package for the students appearing in ICSE examination with graded assessment at all levels of Bloom's taxonomy. It not only encompasses the reasoning, analytical, and application skills of the students, but also provide ambient room for their creativity and flow of ideas. The series not only links scientific knowledge with daily life experiences of students but also bridges it with a wide range of subjects to ensure an integrated learning with a more practical model of education. It ensures a complete intellectual, physical, and linguistic growth of the students.

AUTHORS

Dr. Arunima Ghosh (Biology) is a distinguished secondary school teacher in Delhi Public School, Kolkata (West Bengal). She has published a number of research papers in leading journals and is widely recognised for her eminent research work in the field of education.

Shubha Subramaniam (Chemistry) has nearly three decades of experience and expertise in teaching with various educational institutions across the country. She has also conducted several teacher training programs in India and other Asian countries.

Anshu Kathuria (Chemistry) is an esteemed senior teacher of chemistry at St Peter's College, Agra (UP). She has more than 15 years of teaching experience in schools and other educational institutions across the country.

Dr. R. K. Awasthi (Physics) heads the department of physics at St George's College, Agra (UP). He is decorated with several national and state-level awards for his meritorious work in teaching science and in teacher training.

Atlas

Classes 3 – 5 & 6 – 8

A comprehensive map-based and image-based activity book.

The revised edition of Bsure School Atlas is a reference book that deals with history, geography, wildlife, climate, population, agriculture, industries, tourism, and more. From the fundamentals of map-reading to extensive coverage of topical issues, the atlas is a handy guide for students and researchers alike. It is highly relevant to today's school curriculum as it helps students get a wider perspective on the world around them. Smart design, clear cartography, nuggets of information, and stunning images make it a top-of-the-line book.

★ **ALL BOARDS** General Knowledge

Knowledge Bee | Classes 1-8

Knowledge Bee, a series of general knowledge books for classes 1 to 8, is designed for a systematic and joyful learning experience. Graphical representation of information makes it easier for learners to understand and remember concepts. This series will take the learners to a fun-filled journey of knowledge about India and the world, which would excite them to expand their understanding beyond books.

★ ICSE Computer Science

Adroit | Classes 1-8 Win 10, Office 2016

Adroit, Leading-edge Computer Science, is a school series for classes 1 to 8. Based on Windows 10 and Microsoft Office 2016, the series uses application-based and hands-on approaches to communicate about computers. The series has been designed keeping the NEP 2020 and NCF 2023 guidelines in priority. This course helps learners apply tools and technology, which is explained through real-life contexts and aligns with several Sustainable Development Goals (SDGs) to foster a holistic learning experience.

SERIES EDITOR

Arpita Singh

Having over 16 years of experience in developing Computer Science books for K-12. Deep understanding of curriculum development, pedagogical principles, and educational best practices, resulting in content that resonates with both educators and students.

Live Wire

Classes 1-8 Win 10, Office 2019

Live Wire is an interactive computer science based on Windows® 10 and MS Office 2019. The series has been designed based on NEP 2020 guidelines. It is the most comprehensive school computer series of eight books for classes 1 to 8 with an interactive and hands-on approach to communicate the essential aspects of computers.

SERIES EDITOR

Arpita Singh

Having over 16 years of experience in developing Computer Science books for K-12. Deep understanding of curriculum development, pedagogical principles, and educational best practices, resulting in content that resonates with both educators and students.

Britannica Launch Packs

Curated by teachers, for teachers, around thematic units covered in the **Science curriculum**, Britannica LaunchPacks provides a seamless experience for students to build subject-area knowledge, think critically, and make cross-curricular connections that help them engage in meaningful learning and overall, enhance digital competency skills.

Benefits for Teachers

- **Sustain engagement** in blended learning environments.
- **Enable personalized instruction** through differentiated learning tools.
- **Ensure a broad, balanced and rich curriculum** with thematic, aligned content bundles covering the primary and secondary science and technology area of learning and experience.
- **Empower English Language Learners** with reading support and translations.
- **Build literacy skills** while engaging in curriculum-aligned social studies and science content.
- **Engage digital competence skills** by easily assigning virtual lessons via Google Classroom or Microsoft Teams.
- **Save teachers time** by providing everything they need to teach a lesson, allowing educators to focus on curriculum delivery and skill development instead of sourcing and curation.

Advantages for Students

- **Develop students' critical skills.** LaunchPacks' annotation tool facilitates close reading, builds critical thinking skills, supports student led inquiry, and develops fundamental literacy skills.
- **Learning strategies provide an individual approach** to complete a task, allowing students to use skills to learn content while teaching students how to learn rather than just giving them the content.
- **Students can differentiate their learning** based on their needs in order to engage more deeply in concepts through reading support tools and leveled articles.
- Students can leverage LaunchPacks online as well as offline, where students needing printable resources can access the same content offline – **reducing the reliance on internet connectivity.**
- **Integrated with Kahoot!**, the popular learning games and trivia quizzes platform.

253 years of Legendry Quality and Trust
Accurate, Up-to-Date Content
Written by Scholars (Albert Einstein, CV Raman, Marie Curie);
Edited by EB Professionals
Digital Access: Unlimited people
Contributors: 110 Nobel Prize winners, 20 heads of states, 5 U.S. Presidents
1000's of EBSCO journals, Magazines & Periodicals

MAIN FEATURES

- Age appropriate & interactive content
- Universal access
- Integrating NEP features – Regional & Foreign language translation
- Pop up Merriam Webster dictionary
- World atlas with compare countries
- Student & Teachers can save, share, download and print all the content.
- Build & customized lesson plans
- News & updated articles
- Daily general awareness quizzes
- Pre research planner for students.

Britannica E-Books

E-library with age appropriate, affordable, authentic content with Britannica's trusted and highly acclaimed, non-fiction e-books feeding students curiosity and additional source of research and reference.

Features:-

- Helps to build digital infrastructure in school.
- Online and offline access to extensive range of 1400+ titles.
- E-books for all curriculum subjects.
- Multiplatform compatible – windows, android & IOS.
- Unlimited downloads for students and educators.
- Simultaneous access to everyone.
- Annotation tools—bookmark, Notes, Print, highlight color and font size (zoom in & out).
- Teachers can assign projects and assignments.
- Free MARC records for easy catalogue access.
- Create your own customize package.

Britannica Language Lab

Interactive & Individualized New Age Learning

Language Lab is an easy-to-use and dynamic-pure software solution which emphasises speaking and listening. It makes classroom management easy, enables peer and group discussion, can be easily controlled by the tutor, and makes student evaluation easy.

KEY FEATURES

Option to add 'own content' by a teacher

NCERT-mapped Indiannica Learning content for classes 1 to 8

Solution helps non-participative students build self-esteem and self-confidence

Software facilitates listening, speaking, reading, and writing

Facilitates CBSE ASL activity; auto-recording in MP3 format saves time and efforts of the teachers

Different exercises like listening, reading, round table discussion, model imitation, and discussion can be launched simultaneously according to the need of students.

LISTEN

- Listen with the headset, without external noise
- Listen to various sources
- Record and review

SPEAK

- Repeat after spoken model
- Record and review
- Compare and correct

READ

- Improve oral skills
- Record and review
- Compare

WRITE

- Prepare documents
- Send to the teacher for correction
- Present to a whole class

An easy solution for improving pronunciation.

A screenshot of the Sanako Pronounce software interface. The interface is displayed on a computer monitor. At the top, there's a text input field containing the sentence "I'd like a table for two please". Below the input field, there are three circular buttons: a red one labeled "LISTEN", an orange one labeled "RECORD", and a green one labeled "REVIEW". To the right of the monitor, a cartoon character of a boy wearing a headset and a microphone is pointing towards the screen. Below the monitor, there are three circular buttons: a red one labeled "LISTEN", an orange one labeled "RECORD", and a green one labeled "REVIEW". Below these buttons, there are three columns of text: "Listen to existing text or add your own sentences for practice", "Record your voice for comparison with authentic speech model", and "Review your progress through immediate feedback".

LISTEN

Listen to existing text or add your own sentences for practice

RECORD

Record your voice for comparison with authentic speech model

REVIEW

Review your progress through immediate feedback
